Bellingham, WA

Medical Massage Center

This long term business has grown steadily throughout the years and is now the premier medical massage center in Whatcom County. A solid list of referring doctors proves the case for their reputation and quality of work. The management has built up relations with Labor and Industries and a number of Insurance Companies to build a very strong injury treatment massage therapy practice. Beyond solid profits this company offers a lifestyle for new owners that few business operations can claim. The business requires ownership with a good business sense and strong people communication skills to step into a four day work week with high continued growth potential.

114 W. Magnolia, Suite 302
Bellingham, WA 98225
